USMX Urges ILA To Remain In Compliance With Master Contract

LYNDHURST, NJ (February 22, 2017) --- Reports in industry media that the International Longshoremen's Association, AFL-CIO (ILA) has issued a press release threatening to engage in a coastwide work stoppage are "disturbing," the United States Maritime Alliance, Ltd. (USMX) said.

The Master Contract between the ILA and the USMX forbids any unilateral work stoppage by the ILA for any reason. If the ILA engages in any unilateral walkout, USMX will enforce the contractual rights of its members to the fullest. USMX urges the ILA to remain in compliance with the Master Contract and thus continue to provide the stable labor environment that has existed on the Atlantic and Gulf coasts for decades.
